PROFILE

Full Stack .NET Developer with 1.5+ years of experience building web applications, business platforms, booking systems, and e-commerce solutions using ASP.NET Core, Web API, Entity Framework Core, and SQL Server.

Experienced in RESTful API development, database design, frontend integration, deployment, and maintenance. Strong foundation in OOP, SOLID Principles, and scalable software development

EDUCATION

Beni Suef University | Bachelor's Degree in Information Technology

2019 - 2023

Faculty of Computers and Artificial Intelligence

Very Good

EXPERIENCE

Full Stack .NET Developer | Arkan For Economic Consulting

Onsite (Beni Suef) | March 2025 – July 2026

- Developed end-to-end web applications using C# and ASP.NET Core Web API, integrated with responsive web interfaces.
- Designed relational databases and business logic using SQL Server and Entity Framework Core, managing the full SDLC from development to production deployment.

.NET Developer | JBR Digital

Onsite (Beni Suef) | MAY 2024 – FEB 2025

- Developed secure, scalable RESTful APIs using ASP.NET Core Web API for Angular integration, adhering to Clean Architecture and SOLID principles.
- Implemented JWT auth and RBAC, while optimizing SQL Server performance using stored procedures and indexing within an Agile environment.

Full Stack .NET Developer – Trainee | Information Technology Institute (ITI)

NOV 2023 – APRIL 2024

- Engineered full-stack web applications, building scalable backends with C#, ASP.NET Core Web API, and SQL Server, connected to dynamic single-page applications (SPAs) built with Angular.
- Implemented secure RESTful endpoints and clean UI architecture, adhering to SOLID principles, EF Core best practices, and Agile team workflows.

Programming Instructor | Almustaqbal Academy

Remotely | August 2023 – October 2023

- Developed secure, scalable RESTful APIs using ASP.NET Core Web API for Angular integration, adhering to Clean Architecture and SOLID principles.
- Implemented JWT auth and RBAC, while optimizing SQL Server performance using stored procedures and indexing within an Agile environment.

TECHNICAL SKILLS

- Programming Languages** : C#, JavaScript (ES6+), TypeScript, HTML5, CSS3
- Backend Development** : ASP.NET Core, ASP.NET Web API, ASP.NET MVC, Entity Framework Core, RESTful APIs
- Frontend Development** : Angular, Bootstrap 5, Responsive Web Design,
- Database** : Microsoft SQL Server
- Software Engineering** : Object-Oriented Programming (OOP), SOLID Principles, Design Patterns
- Tools** : Git, GitHub, Postman
